

PROFESSIONAL PROFILE — ARYAN MEHTA

=====

Personal Information

Name: Aryan Mehta
Location: Bangalore, Karnataka, India
Email: aryan.mehta@email.com
LinkedIn: [linkedin.com/in/aryanmehta](https://www.linkedin.com/in/aryanmehta)
GitHub: github.com/aryanmehta-dev
Portfolio: aryanmehta.dev

Professional Summary

Full-stack software engineer with 3 years of experience building scalable web applications and AI-powered tools. Passionate about solving real-world problems through clean code, intuitive design, and intelligent systems. Experienced in leading small engineering teams, shipping production-ready features, and contributing to open source. Currently focused on building SaaS products at the intersection of AI and developer tooling.

Work Experience

Software Engineer — TechNova Solutions, Bangalore (Jan 2023 – Present)

- Led development of a real-time analytics dashboard used by 10,000+ daily active users built with React.js, Node.js, and PostgreSQL.
- Reduced API response time by 60% by implementing Redis caching and query optimization strategies.
- Built an internal AI assistant using OpenAI GPT-4 API that automates customer support ticket classification, reducing manual effort by 40%.
- Mentored 3 junior developers and conducted weekly code reviews to maintain code quality standards.
- Integrated CI/CD pipelines using GitHub Actions, reducing deployment time from 45 minutes to 8 minutes.

Software Development Intern — Infuse Labs, Pune (May 2022 – Dec 2022)

- Developed RESTful APIs for a food delivery platform serving 50,000+ users using Node.js and Express.
- Built a recommendation engine using collaborative filtering that increased user order frequency by 18%.
- Worked closely with the product and design team to ship 12 new features in 6 months using agile methodology.

- Wrote unit and integration tests using Jest, achieving 85% code coverage across the backend codebase.

Education

Bachelor of Technology in Computer Science
Manipal Institute of Technology, Manipal (2018 – 2022)
CGPA: 8.4 / 10

Relevant Coursework: Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Networks, Machine Learning, Software Engineering, Distributed Systems.

Higher Secondary Certificate (Class 12)
Delhi Public School, New Delhi — 94.6% (2018)

Technical Skills

Programming Languages: JavaScript, TypeScript, Python, Java, C++
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux
Backend: Node.js, Express.js, FastAPI, REST APIs, GraphQL
Databases: PostgreSQL, MongoDB, MySQL, Redis, Firebase
AI/ML: OpenAI API, Langchain, FAISS, Sentence Transformers, Scikit-learn, Pandas, NumPy
DevOps & Tools: Git, GitHub, Docker, AWS (EC2, S3, Lambda), Vercel, Render, Linux
Testing: Jest, Mocha, Pytest

Projects

1. AI Code Reviewer

A developer tool that automatically reviews GitHub pull requests using GPT-4 and provides inline suggestions on code quality, security vulnerabilities, and performance improvements.

Tech Stack: React.js, Node.js, OpenAI API, GitHub API, PostgreSQL, Docker

Features: PR integration, inline comments, severity scoring, team dashboard

Live: aicodereview.vercel.app | GitHub: github.com/aryanmehta-dev/ai-code-reviewer

Impact: Used by 200+ developers, saved an average of 2 hours per PR review cycle.

2. DevConnect — Developer Networking Platform

A LinkedIn-style platform exclusively for developers where users can showcase projects, find collaborators, and get matched with open source opportunities based on their skill stack.

Tech Stack: Next.js, Node.js, MongoDB, Socket.io, AWS S3, Redis

Features: Real-time messaging, skill-based matching, project showcase, GitHub OAuth

Live: devconnect.app | GitHub: github.com/aryanmehta-dev/devconnect
Impact: 500+ registered users within 2 months of launch.

3. SmartResume — AI Resume Analyzer

An AI-powered tool that analyzes resumes against job descriptions and provides a match score, keyword gap analysis, and rewrite suggestions using NLP.

Tech Stack: Python, FastAPI, Streamlit, Sentence Transformers, FAISS, OpenAI API

Features: PDF upload, JD comparison, keyword extraction, ATS score, rewrite suggestions

Live: smartresume.streamlit.app | GitHub: github.com/aryanmehta-dev/smartresume

Impact: 1,000+ resumes analyzed, 4.8/5 average user rating.

4. RealTrack — Real Estate Price Predictor

A machine learning web app that predicts property prices in Indian metro cities based on location, amenities, and historical data.

Tech Stack: Python, Scikit-learn, Flask, React.js, PostgreSQL

Features: Price prediction, location heatmap, trend analysis, comparison tool

GitHub: github.com/aryanmehta-dev/realtrack

Model Accuracy: 91.3% on test data using Random Forest Regressor.

5. OpenBlog — Headless CMS and Blogging Platform

A fully open-source headless CMS that allows developers to create, manage, and publish content via API. Supports markdown, rich text, media uploads, and multi-author workflows.

Tech Stack: Next.js, Node.js, MongoDB, AWS S3, GraphQL

GitHub: github.com/aryanmehta-dev/openblog

Stars: 340+ GitHub stars, 12 open source contributors.

Achievements & Awards

- Winner — HackIndia 2022 National Hackathon (1st place out of 800+ teams)
Built an AI-powered mental health support chatbot in 36 hours using GPT-3 and React.
- Runner-Up — Smart India Hackathon 2021 (Software Edition)
Developed a blockchain-based land record management system for rural areas.
- Top 5% — LeetCode Global Rankings (solved 600+ problems, max rating 1920)
- Google Developer Student Club Lead — Manipal Institute of Technology (2021–2022)
Organized 15+ technical workshops attended by 2,000+ students.
- Published Research Paper — "Semantic Search Using Transformer-Based Embeddings"
International Journal of Computer Science and Engineering, Vol. 9, Issue 3, 2022.

Certifications

- AWS Certified Developer – Associate (Amazon Web Services, 2023)
- Deep Learning Specialization — Coursera / DeepLearning.AI (Andrew Ng, 2022)

- Full Stack Web Development Bootcamp — Udemy (2021)
- Google Cloud Fundamentals — Google Cloud Skills Boost (2022)

Open Source Contributions

- Contributed pagination and dark mode features to Chakra UI (React component library) — 3 PRs merged
- Fixed critical memory leak bug in a popular Node.js ORM (Sequelize) — PR merged, 200+ upvotes
- Maintainer of aryan-utils — a collection of 40+ JavaScript utility functions with 800+ weekly npm downloads

Languages

- English — Fluent (Professional)
- Hindi — Native
- German — Beginner (A2 level, currently learning)

Interests & Hobbies

- Building developer tools and open source projects on weekends
- Technical blogging — published 25+ articles on Medium (12,000+ total reads)
- Competitive programming and algorithmic problem solving
- Teaching — conducts free DSA workshops for college students on YouTube (3,000+ subscribers)
- Chess (ELO rating: 1450 on Chess.com)
- Hiking and landscape photography
